Join us and Mrs. Bregier, as she curates a collection of portraits from the WU permanent collection. Each portrait will represent a diverse group of Americans. In this informative presentation, students will be able to view the actual works of art in the museum and hear the background story of the creation of the artwork.

Mrs. Charlene Bregier has taught various courses in art for more than 18 years. She will be presenting to students about a new addition to the university art collection - contemporary portrait painters.
